

Jeremy G. Hilliard

Atlanta, GA • 701-240-2035 • jeremyhilliard14@gmail.com

SUMMARY:

Full-stack web developer (anticipated June graduation from full-stack bootcamp) with 12+ years of supply chain management and operations experience seeking full-time or contract opportunities to utilize HTML, CSS, JavaScript and the MEAN stack.

WEB DEVELOPMENT EXPERIENCE:

DigitalCrafts, Full Stack Developer; Atlanta, GA

Portfolio: www.jeremyhilliard.com

MyGrub: <http://students.digitalcrafts.com/karma-yogis/#/>

Group front end project built using HTML, CSS, SASS, and AngularJS.

Log-in/Sign-up, inventory and favorites created using local storage. Contains an inventory page that allows users to load items into an inventory as well as favorite foods. You can then search recipes based off checked items in the inventory and favorite foods. The project utilizes the Yummly API to pull recipes that are relevant to the user.

Battle of Bristol Countdown:

A simple countdown to the Virginia Tech/Tennessee football game in September 2016, showing tweets about the game. The app was created using JavaScript, HTML, and CSS.

Google Maps App:

A map showing the top 39 most populated cities in the country using the Google Maps API. Using JavaScript and JQuery users can zoom in on cities and search for campgrounds located near those cities.

Memory Game:

A memory game where the user matches pictures that are randomly dispersed across the grid. The game was built using HTML, JavaScript, JQuery and CSS..

Interactive Map:

Map showing the electoral votes for each state. As you click on the states the state changes color and the votes count towards the selected party. The app uses JavaScript, JQuery.

PROFESSIONAL EXPERIENCE:

HILLIARD CONSULTING; Atlanta, GA

Consulting services

- Serve as consultant for lean and/or operational excellence projects, creation and implementation of training plans, and continuous improvement initiatives.
- Perform corporate security services for C-Suite during travel abroad and domestically.

Jeremy G. Hilliard

125 Old College Way, Atlanta, GA 30328 • 770-668-9657 • jeremyhilliard14@gmail.com

OLDCASTLE ENCLOSURES; Acworth, GA

Manufacturer of polymer concrete building materials

Assistant Plant Manager (2013-2014)

Led manufacturing and maintenance operations of 24/7 facility. Created operating procedures and preventive maintenance actions. Led and coached 30 employees, including five supervisors, across two shifts. Responsible for safety and training of all plant personnel.

- Grew manufacturing operation from \$16M to \$30M+
- Helped achieve \$800,000+ in cost savings

ALUM-A-LIFT, Inc; Winston, GA

Manufacturer of custom ergonomic lifting solutions

Manufacturing Manager (2011 – 2013)

Directed all aspects of manufacturing operations. Acted as technical liaison with engineering design team for changes to projects in production. Provided machining and assembly schedules and managed training for all associates.

- Decreased overtime by 75% while reducing past due projects by 50% through effective scheduling and work center load management
- Decreased safety incidents by 75% from 2011 through 2012 by spearheading communication and prevention efforts

HONEYWELL FEDERAL MANUFACTURING & TECHNOLOGIES, LLC; Kansas City, MO

Electronics manufacturing for the National Nuclear Security Administration

Integrated Supply Chain Senior Supervisor (2006 – 2011)

Managed laser welding, encapsulation/coating of various electronics assemblies, and Class 100 and 10,000 clean rooms for the Department of Energy. Led 24 direct reports across three work centers and three shifts in the plant's most visible department. Coordinated maintenance actions on 20 ovens and 7 laser welders.

- Managed cost savings initiatives; switch to new style 10CC syringe plungers resulted in approximately \$65K savings in 2009; over \$100K in savings for projects in 2010
- Pushed safety focus to the floor doubling safety interventions from 2009 and leading to 365+ days without a first-aid incident

UNITED STATES AIR FORCE, 5th Munitions Squadron; Minot Air Force Base, ND

Munitions support to the 5th Bomb Wing and 91st Space Wing

Flight Commander (2003 – 2006)

Led 100 people across 5 work centers. Developed training and organized deployment preparations while maintaining accountability of all munitions movements of \$5.5 billion stockpile.

- Developed equipment maintenance plans; ensured zero downtime of 3000+ pieces, valued at \$64M
- Received two Air Force Commendation Medals; helped unit achieve two Air Force Outstanding Unit Awards and two Air Combat Command (ACC) Maintenance Effectiveness Awards (MEA)
